High-flying careers for a better environment

ENVIRONMENTAL TECHNOLOGY AND INTERNATIONAL AFFAIRS

Over the last few years environmental challenges have taken on a new urgency on a local, regional and global level. In particular, issues regarding the protection and sustainable use of environmental resources have become an essential concern. This puts increasing demand on decision-makers, who require a broad knowledge and understanding of the political, legal, economic and technical issues involved. Everybody concerned, whether as representatives of ministries, international organizations, NGOs or the private sector, has to deal with an ever-increasing range of environmental related questions.

The ETIA postgraduate MSc Program enables graduates to understand and analyse the relevant scientific and technical issues at the same time as providing them with a sound basis of knowledge of international affairs in order to deal with both current and future challenges concerning the environment and sustainable development.

This interdisciplinary MSc is a joint Program of TU Wien and the Diplomatic Academy of Vienna. It is a pioneering project in the combination of international issues and environmental technology.

**Diploma of the University of Vienna**

Voces School of International Studies

**Academy of Vienna**

The Diplomatic Academy of Vienna is a postgraduate school of European and international studies preparing university graduates for high-flying careers in diplomacy, international organizations or international business.

The interdisciplinary study programs aim at providing the academic expertise, personal skills and intercultural competence required for careers in the international field.

Situated in a former Imperial Palace in the center of Vienna, the DA campus is characterized by its international student body with representatives from all 40 different nations.

This very diversity ensures that "internationalism" and "intercultural communication" are practiced on a global level.

**TU Wien**

Technology for People – Developing Scientific Excellence and Enhancing Competentis Competition

TU Wien is the largest Austrian institution in research and education within the area of technology and natural sciences. The beginnings of TU Wien date back as far as 1851, the year 1891.

Today the university firmly holds international and domestic recognition in teaching as well as in research and is a highly esteemed partner of innovation oriented enterprises.

For years TU Wien has been successfully offering outstanding postgraduate programs. This success is based on the top scientific and economic qualifications of its faculty.

**Academic Year – Diplomatic Academy of Vienna**

**Academic Year – TU Wien**

**Curriculum**

The two-year MSc Program embraces a wide range of topics and is divided into two distinct segments. The focus of the technical and scientific segment is on the quality management of air and water, the management of resources and energy, as well as climate change. After a general introduction to international relations, the international studies segment deals with the major political, economic and legal issues concerning the environment and sustainable development.

**Academic Year – Diplomatic Academy of Vienna**

The Diplomatic Academy of Vienna is a postgraduate school of European and international studies preparing university graduates for high-flying careers as managers and diplomats. International and diplomatic tasks in the fields of the environment and sustainable development.

Graduates of this course are able to assess and analyze problems from a legal, economic, scientific and technical standpoint and take active part in implementing and managing new strategies.

**Target Group**

This MSc Program is designed for postgraduates of all disciplines whose professional career may function as a bridge between their knowledge in international affairs and the scientific and technical issues relating to the environment.

**Admission Requirements**

Admission requirements are a Baccalaureate degree, a Magister degree or an internationally recognized first degree in a related field.

An excellent command of English is a prerequisite for admission. Non-native speakers need to furnish evidence of their language abilities. The following certificates are recognized:

- Free degree in English
- C1L
- TOEFL (minimum 627 points (written) or 263 points)
- IELTS (minimum 6.0 points)
- DÖS, minimum 627 points (written), or 263 points (computer based) or 164 points (internet based)

**Final Degree**

The MSc Program is concluded with a master’s thesis.

The first degree “Master of Science in Environmental Technology and International Affairs” (MSc) is granted by TU Wien in cooperation with the Diplomatic Academy of Vienna.

High-flying careers for a better environment
LOCATION
The MSc Program takes place on the centrally located campuses of the TU Wien and the Diplomatic Academy of Vienna.

DURATION
The MSc is presented in modules and requires two academic years. One is at TU Wien and the other at the Diplomatic Academy of Vienna. In the first academic year of the program participants must attend the international studies segment at the Diplomatic Academy of Vienna.

TUITION FEE
The fee for this two-year full-time MSc Program is EUR 24,400; this covers tuition only.

ADMISSION
To be eligible for admission to the ETIA MSc Program candidates must prove all admission requirements and run the online application procedure before the application deadline. A decision on admission to this MSc Program will be taken by the Academic MSc Program Committee by April 2016. Candidates may also be required to be available for interviews.

APPLICATION
Application Deadline
March 15, 2016

Online Application Process
http://application.da-vienna.ac.at/master/Application.aspx

1. Register
2. Fill in the online application form and upload your CV.
3. The document size of your CV must not exceed 1 MB.
4. Post copies of the following to the DA Registrar’s Office: these documents (*double set* – except for the recommendation letters and photos) should reach the Registrar by 15 March 2016 at the latest:
   - CV
   - motivation letter
   - proof of competence in English (please check the requirements and the list of accepted certificates under the tag “admission”)
   - university/college diploma
   - transcript of grades
   - highschool diploma
   - copy of your passport
   - photo (passport sized)
   - two recommendation letters. These MUST be:
     - submitted by the referees to the candidate in a sealed envelope or
     - submitted by the referees directly to our registrar Ms Genny Chiarandon by postal mail.

    Please send the documents (*double set* – except for the recommendation letters) listed above to:
    Diplomatic Academy of Vienna
    Genny Chiarandon
    Favoritenstr. 15a
    1040 Vienna, Austria

    *The second set of these documents is needed to register candidates who have been admitted to the ETIA programme simultaneously as students of TU Wien.*

Certified Translations
The working languages of the Diplomatic Academy are English, French and German. If your documents are not issued in one of these languages, please make sure you include certified translations with your application.
